

About Corporate Roundtable

The California Community Colleges (CCC) Corporate Roundtable brings together business leaders, aligned organizations, and community college decision makers to advance the goals of the California Community Colleges. Corporate Roundtable membership provides an opportunity for organizations to be involved with our community colleges in meaningful ways by making a significant contribution to our students and our state. At the same time, it generates support for critical programs and initiatives that allow the Foundation for California Community Colleges to carry out its mission of benefiting, supporting, and enhancing 116 California Community Colleges.

Corporate Roundtable Membership Structure

Effective 2017, the Foundation expanded the breadth and depth of options to connect external partners with a diverse and de-centralized system. CCC Corporate Roundtable members receive customized outreach planning and assistance, which provides benefits such as special invitations to events with the Chancellor, attendance at key community college convenings, promotion through the Foundation's online presence and marketing materials, monthly news updates regarding the California Community College system, and more.

Help the California Community Colleges expand paths to social and economic mobility at the supporter or strategic partner level.
