Approximately 90,000 veterans, active duty military members, reservists, and their dependents enroll in a California community college each year. The California Community Colleges Veterans Symposium brings together professionals from community colleges and four-year universities to learn strategies and best practices to better serve our student veterans. This unique event offers staff, faculty and administrators the necessary tools to better understand the needs of student veterans and how to support their successful transition into higher education and careers.

The eighth annual Veterans Symposium will take place April 6-7, 2020 in Newport Beach, California.

Your sponsorship and support of this premier event is an opportunity to highlight your commitment to the nation’s largest system of higher education and to our nation’s veterans.

- This event will reach hundreds of California community college decision-makers, including counselors, deans, administrators, trustees, faculty members and statewide leaders, in addition to representatives from the California State University and University of California systems.
- Sessions provide practical information on VA benefits and education plans, services specific to women veterans, establishing campus-based Veterans Resource Centers, best practices in academic counseling, mental health services, along with access to federal, state, and local resources.
- Sponsorships offer opportunities to exchange ideas with system leaders and showcase your organization’s commitment to services supporting student veterans.
SPONSORSHIP OPTIONS

Sponsorship opportunities include the following events. Please make your first choice selection. Opportunities will be named in the order received. General contributions are also greatly appreciated and can be made by selecting “Friend of the Veterans Symposium” below and providing a dollar amount for your contribution.
