Our Story

Since 1998, the Foundation for California Community Colleges has partnered with state and local agencies, workforce intermediaries, colleges, non profits, and private companies through our Career Catalyst signature service.

Career Catalyst simplifies the process of implementing paid work experience programs by handling “back office” administrative tasks like onboarding, payroll, and more, allowing organizations to focus on creating meaningful opportunities. To get started, organizations contract with the FoundationCCC through our flexible program models. Our team supports program staff and participants through the full life cycle of work experience activities.

Our Services:

We provide training, resources, and expertise to support programs and ensuring workers gain knowledge of the skills and attributes necessary to be successful in the workplace.
